

PicoServ 4 Slot Enclosure

A tough, solid aluminium enclosure which is capable of housing the PicoServ server module and up to three other PicoServ I/O modules.

The enclosure has an attractive anodised finish and is ideal for deploying the PicoServ system in:

- Plant Rooms
- Factory Floor
- Computer Rooms
- Lab
- Office

The enclosure is supplied with an internal power and serial port cable providing simple front panel connections for system power and the web server serial port.
